You must position the targeting cursor at the screen edge to scroll in

the desired direction.

Pull the cursor away from the edge to halt the screen.

Position the cursor close to a Punk and it will automatically "lock on" for a short period of time.

## LEVEL 2

During this level you will be able to pick up and collect weapon power-ups that will either upgrade or increase the power of your weapons.

These are as follows:-

P - Power-Up

(This will increase the basic gun to Rapid Fire and then to 3-way weapon).

F - Flame Thrower

L - Lazer Gun

M - Guided Missile

Pressing the Fire 2 button (Console) or Space Bar will toggle between the current weapons. The special weapons have a limited ammunition but you may be awarded an infinite supply of bullets for an upgraded weapon by collecting a P token.

Repair tokens are also positioned around the map and these are collected by walking over them, and they will be stored up for later use in the repair section at the end of the level.
